

## Prayer of Supplication

God already knows what you need; you don't need to ask Him.  
By asking for something, you're admitting a lack in your life and God has promised to provide for all your needs.  
If your prayer isn't answered, it means you lack faith...or there's too much sin in your life...or you didn't ask properly.  
You only need to ask God once. If you ask more than once, you lack faith and insult God.  
You need to repeat your requests—God rewards persistence.
